The Master Key that Unlocks the Gates of Melody for All.

Assuming that you are not a pianist, yet have a piano in your home which is played very little, if at all, we want to interest you in the wonderful Apollo

Piano Player. The APOLLO is a small, neat cabinet, supplied with "fingers" that play like those of a professional, giving to any one, upon any piano, and without instruction, practically unlimited command of the keyboard.

The APOLLO supplies the difficult and tiresome "fingering"-the drudgery of piano playing.

The perforated paper roll

supplies the proper notes. We have this wonderful instrument in both the cabinet style and also the "APOLLO PIANO." which is a combined modern upright piano with the Apollo mechanism concealed within the case.

Old instruments will be taken in part payment at liberal valuations, and the balance may be paid in small weekly or monthly payments.

Purchase price includes a free subscription to our large Circulating Library of Music.
